SUMMARY

I help businesses build and grow high-performance web applications — anything from AI-powered SaaS platforms to real-time dashboards — using Next.js, TypeScript, Node.js, Supabase and AI tools like OpenAI and Claude. My work is always production-ready, scalable and delivered when promised.

SKILLS

AWS · AWS Lambda · AWS S3 · CSS · Django · Docker · Git · GitHub · GIT Version Control · Google Firebase · GraphQL · HTML · JavaScript · Laravel · MongoDB · Modular · Next.js · Payment Gateways · PHP · PostgreSQL · Python · Rails · React · Redis · REST · Ruby · S3 · Serverless · Stripe · Tailwind · TypeScript · Vercel · Vue.js · WebSockets · GitHub Actions · Node.js · Router

VYTAUTAS BRAUKA

SENIOR FULL STACK DEVELOPER | NEXT, VUE, NODE.JS, SUPABASE, OPENAI | AI MVPs, AI INTEGRATION

EXPERIENCE

Freelance

Senior Full-Stack Web Developer

Remote

01/2019 - Present

- Delivered fast, scalable SaaS platforms, AI-powered dashboards, and serverless applications for over 40 global clients
- Built full-stack applications using Next.js, TypeScript, Node.js, Supabase, PostgreSQL, and AI APIs (OpenAI, Claude, LangChain)
- Designed and deployed REST, GraphQL, and tRPC APIs with AWS Lambda, Vercel, and Cloudflare Workers
- Improved application performance by up to 50% through caching, WebSockets, and database optimisation

BrightLayer Technologies

Brighton, United Kingdom

Full-Stack Developer

08/2016 - 12/2018

- Developed enterprise-grade web applications with React, Node.js, PostgreSQL, and RESTful APIs
- Led backend integrations and automated workflows using AWS S3, Stripe APIs, and microservices
- Collaborated with UI/UX teams to deliver responsive, mobile-friendly interfaces using Tailwind CSS
- Reduced API response times by 40% through query optimisation and Redis caching

PixelWave Solutions

Middlesbrough, United Kingdom

Junior Web Developer

06/2014 - 07/2016

- Built custom Laravel applications and migrated legacy PHP systems to modern frameworks
- Implemented secure authentication systems, payment gateways, and administrative dashboards
- Applied HTML, CSS, JavaScript best practices to create cross-browser-compatible interfaces
- Gained experience with Agile workflows, Git version control, and CI/CD pipelines

EDUCATION

West Herts College

Watford, United Kingdom

Bachelor of Science - Computer Software Engineering

09/2011 - 07/2013

- Completed a one-year Higher National Certificate (HNC) in Computing with a focus on software development.
- Covered core programming concepts including Java, JavaScript, HTML/CSS, and database management.
- Gained practical experience through group projects and coding challenges.
- Developed skills in problem-solving, software design, and teamwork.
